Max output of 6.5A

**Smart technology**  
Always provides your device the perfect amount of power

**Fast Charge**  
The device will charge from 0% to 50% in just 30 minutes

## Product Information

### OVERVIEW

Compact, lightweight and stylish, with a sophisticated design thanks to its matt black finish, All4 with 4 USB ports is the portable home battery charger that reaches a total output of 6.5A, and you can use it to literally charge all your devices at once. Smaller than the usual chargers, you can take it anywhere and it is perfect for travel and to be carried around comfortably.

Thanks to the Smart technology, charging is fast and precise, this technology can detect the electrical distribution mode in each different device connected to it and provide optimal current at high speed for each port.

All4 controls the temperature, thereby protecting all your devices thanks to its anti-overheating system that offers maximum safety and a constant current flow whenever you are charging and stops automatically when the battery is fully recharged.
