Product Information

OVERVIEW

The rechargeable pack for Geneeo notebooks is made of durable and waterproof nylon fabric in case of rain, with a sleek and urban design.

Genius Pack contains a built-in 7000 mAh Power Bank and includes all the cables necessary to recharge your electronic devices simultaneously thanks to three USB 2.0 ports. The practical system for removing the cables is arranged in the various compartments of the backpack to make the charging of each device even more convenient.

The compact wall adapter allows you to simultaneously recharge all your devices and the main Genius Pack battery through a single socket. The back and the shoulder straps of the backpack have extra padding that ensures maximum comfort during everyday use while protecting the transport of the devices during your business or leisure trips.
