Product Information

OVERVIEW

Geneeo cables are at the top of their category in terms of technical specifications and materials. The aluminum body and snagless nylon cable are an elegant and durable solution over time. They are compatible with fast charge 2.4A technology and allow fast data transmission. The 2 in 1 is very practical because in addition to Apple mobile devices it allows you to charge all your electronic devices equipped with a Micro USB input. They can handle USB 2.0 speed
Fast Charge Ready
